PAD, PLANNED AREA DEVELOPMENT

Sections:

17.78.010 Purpose.

17.78.020 Procedure and application.

17.78.030 Design standards.

17.78.040 Other requirements.

17.78.050 Amendments.

17.78.060 Interpretations.

17.78.070 Enforceability.

17.78.010 Purpose.

- A. A planned area development is intended:
 - 1. To encourage a more creative approach in land development and result in better and more aesthetic use of open areas while maintaining the same population densities and area coverages permitted in this code.
 - 2. To establish planning and development control parameters while allowing sufficient flexibility to permit final detailed planning at the time of actual development, and allow flexibility in design, placement of buildings, use of open spaces, etc.
 - 3. To best utilize the potentials of sites characterized by the special features of topography, size and shape and encourage a possible inter-relationship of mixed uses between residential and commercial or commercial and industrial.
- B. For the purpose of this section, a PAD shall:
 - 1. Be a single development project or a phased development with specific plans for each phase;
 - 2. Be developed according to comprehensive and detailed plans that include locations of streets, utilities, lots, building sites and other uses; also site plans and floor plans for all buildings as intended to be located, constructed, used and related to each other, and detailed plans for other uses and improvements on the land as related to the buildings;
 - 3. Include a plan for the provision, operation and maintenance of common use areas, services, facilities and improvements.

(Ord. 2007-004 § 1 (part))

17.78.020 Procedure and application.

A. A planned area development is a zoning overlay district which allows design modifications to the provisions of this code. A planned area development, therefore, shall follow the same procedure as a zoning amendment outlined in Section 301.

B. A site plan for the planned area development shall be submitted with the zoning amendment along with all filing application materials and fees, as stipulated in Chapter 17.80.

C. The application shall include a tabulation showing the total number of acreage in the proposed project and the amounts of acreage devoted to various residential dwelling types and commercial or industrial uses, and common open spaces, parks, schools and other reservations. The total number of dwelling units, off-street parking and loading spaces and overall density per gross acreage shall be a part of the tabulation.

D. A copy of agreements and provisions of conveyance and restrictions which govern the use, maintenance and continued protection of the planned development and its common open space shall be submitted with the application.

(Ord. 2007-004 § 1 (part))

17.78.030 Design standards.

A. The proposed project shall constitute an environment of sustained desirability and stability and will be in harmony with the character of the surrounding developments and neighborhoods and consistent with the purpose of this chapter.

B. The yard requirements for the zoning class in which the planned area development is located shall apply to all exterior boundary lines of the site, except that the council may modify these requirements.

C. To assure that the proposed development shall not adversely affect adjacent property in the absence of an appropriate natural physical barrier, one of the following may be required:

1. Structures located on the perimeter of the planned development must be set back no less than the abutting zoning class or by a distance sufficient to protect the privacy and amenity of adjacent existing uses as determined by the commission;
2. Structures located on the perimeter of the planned development must be permanently screened in a manner which is sufficient to protect the privacy and amenity of the adjacent existing uses;
3. Uses of least intensity may be required to be arranged along the boundaries of the project, such as requiring single-family dwellings to be constructed along the boundary of the development abutting other single-family dwellings on adjacent property;
4. All structures shall conform substantially with the requirements of the comparable zoning class (i.e., height limitations, etc.);
5. All infrastructure shall comply with standards and specifications set forth in the "Maricopa Association of Governments Uniform Standard Specifications for Public Works Construction (Revised)" or as approved by the town engineer.

D. Every structure containing residential, commercial or industrial units shall have access to a street directly, or other permanent open space, common yard, or outer court, dedicated to the public use or owned and maintained as common ground.

E. In a residential planned area development there shall be a minimum of ten percent of the total site area of the planned area development dedicated or reserved as usable, "common open space." Common open space lands shall be clearly designated on the plan as to character of use and development but shall not include:

1. Areas reserved for the exclusive use or benefit of an individual owner or tenant; nor;
2. A dedicated or private streets, alley easements or other public right-of-ways; nor;
3. Vehicular drives, parking, loading and storage areas.

F. The number of dwelling units permitted in any district shall be determined by dividing the site area by the minimum lot area per dwelling unit required in the zoning district in which the site is located.

G. No planned development for residential use may include less than ten acres of contiguous land unless the town council finds that a tract containing less than ten acres is suitable as a planned area development by virtue of its unique character, topography or other features.

(Ord. 2007-004 § 1 (part))

17.78.040 Other requirements.

The planning and zoning commission shall insure that the public welfare and safety is preserved and that provision is made for harmonious and appropriate development by requiring as needed:

- A. Provision of public use space for parks, schools, recreation areas, etc.;
- B. Coordination of street layout with existing or planned streets;
- C. Preservation of natural features, such as trees, hilltops, watercourses, and archaeological sites;
- D. Conceptual plans of building design in addition to a comprehensive plan for the development;
- E. Proof of adequate sanitary sewage and water systems;
- F. Adequate fire protection;
- G. Schedule of plan implementation;
- H. Additional issues of public interest.

(Ord. 2007-004 § 1 (part))

17.78.050 Amendments.

The following procedures shall be followed for any amendment to a PAD including amendments to the development phasing schedule:

A. Major Amendments. A PAD district applicant or his successors in interest may file a request for a major amendment with the planning and zoning department. The change will be deemed major if it involves any one of the following:

1. An increase in the approved totals of dwelling units or gross leasable area for the PAD district;
2. A significant change in zoning boundaries as determined by the zoning administrator from those approved for the PAD district;
3. Any change which could have significant impact on areas adjoining the PAD as determined by the zoning administrator;
4. Any change which could have a significant traffic impact on roadways adjacent or external to the PAD as determined by the zoning administrator.

The zoning administrator shall bring the major amendment before the planning and zoning commission and town council and will submit background material and recommendations.

B. Minor Amendments. A PAD district applicant or his successors in interest may file a request for a minor amendment with the zoning administrator.

The request will be routed for comment to any affected municipal departments or other agencies for comment.

Upon receipt of comments, the zoning administrator will determine whether the requested change is minor or major.

If the requested change is determined to be minor, an amended plan shall be submitted for public record.

(Ord. 2007-004 § 1 (part))

17.78.060 Interpretations.

In the event that it becomes necessary to interpret stipulations within the PAD district, the board of adjustments shall hold a hearing and make such interpretations.

(Ord. 2007-004 § 1 (part))

17.78.070 Enforceability.

A. The PAD designation shall continue to be implemented and maintained for the total acreage of the PAD district, even though ownership may subsequently be transferred in whole or in part.

B. It is the responsibility of the owner to notify all prospective purchasers of all or part of the property within the district of the existence of the PAD district designation and the development agreement contained

therein.

C. Conformance with the PAD shall be enforced by recordation of the appropriate deed restrictions for each parcel of property within the district, prior to the issuance of building permits, for each development unit.

D. Notification and recordation as provided above shall be required in order to retain the unitary aspect of the district.

E. Application for approval of the first development unit shall be made, and development shall commence, within two years of the date upon which the PAD district amendment was approved. Applications for approval of subsequent units shall be made in accordance with the development-phasing schedule contained in the PAD development agreement.

F. Failure to commence development within the two-year time period shall cause the PAD district classification to become null and void, and any property rezoned in conformance with the PAD district amendment and the PAD program to revert to its former zoning classification without further action by the town council.

G. At such time that the planning and zoning commission shall determine that the applicant is not proceeding to develop in accordance with the PAD development schedule and agreement, it shall notify the applicant in writing of such deficiency and shall, simultaneously, notice a hearing to determine the cause of the delay.

H. The hearing shall be held within thirty (30) days of the date of the written notice, and shall follow commission procedures for hearings.

I. The commission may determine good cause for such deficiency and may, in conjunction therewith, entertain an application to amend the development phasing schedule.

J. The commission may determine that there is no good cause for such deficiency, and in such event may impose additional restrictions on the applicant to ensure future compliance with the PAD program including, but not limited to, the filing of such periodic reports as the commission shall require to enforce this provision.

K. At such time that the commission shall determine that the current owner of any portion of the PAD district is not in compliance with a provision of the PAD program or the public dedication or improvement schedules no further vesting of zoning or approval of final site plan or subdivision plats shall occur for that portion. Such determination of noncompliance shall be at a public hearing. The applicant and current owner(s) shall receive written notice of hearing.

17.80.010 Purpose.

The council may, from time to time, for public necessity, convenience, general welfare or good zoning practice requirements, change the district boundaries, or amend, change, repeal or supplement the regulations herein established. Such change or amendment may be initiated by the council or the planning and zoning commission on its own motion, or by petition of one or more owners of real property within the area proposed to be changed.

(Ord. 2007-004 § 1 (part))

17.80.020 Petitions and amendments.

A. Petitions for change of district boundaries or amendment of regulations shall be filed with the zoning administrator by an owner of real property within the area proposed to be changed, or by the council or commission. In the case of a petition filed by a party other than the council or commission requesting a zoning district change which includes other property in addition to that owned by the petitioner, the petition shall include the signatures of the real property owners representing at least seventy-five (75) percent of the land in the area proposed to be changed. All such petitions shall be filed on a form provided for the purpose and shall include:

1. A map showing the particular property or properties for which the change of zone is requested and substantially the adjoining properties and the public streets and ways within a radius of three hundred (300) feet of the exterior boundaries thereof;

 5. Such photographs, drawings and other supporting documents (if any) as the applicant may desire to present; and
 6. Payment of a filing fee in an amount established by a schedule adopted by ordinance or resolution of the council and filed in the offices of the town clerk. No part of the filing fee shall be returnable. Payment of filing fee shall be waived when the change or amendment is initiated by the council or the commission, or when the petitioner is the town, county, state or federal government.

B. Under certain circumstances where the nature of the permitted or conditional use is such that it would be unnecessary or economically unfeasible for the applicant to prepare a plan in accordance with above requirements, the zoning administrator may waive certain of the above requirements, but in all cases the applicant will be required to submit some type of site plan drawn to scale.

C. Upon receipt of a completed application for amendment, the zoning administrator shall forward the application to the planning and zoning commission.

D. Any plan approved by the zoning administrator under the provisions of Chapter 17.88 must substantially conform to the tentative development plan submitted as part of the petition for a change of district boundaries.

Upon receipt of any completed application for amendment, the commission shall fix a reasonable time for the hearing of the proposed zone change, amendment or addition, and shall give notice thereof to interested parties and to the public by publication in the official newspaper of the town, and by posting the area included in the proposed change and in at least ten public places, not less than fifteen (15) days prior to the

hearing. Notice shall also be mailed to the owners of all real property within three hundred (300) feet of the property for which application is made. The notice shall set forth the time and place of the hearing including a general explanation of the matter to be considered and including a general description of the area affected. The commission may for any reason, when it deems such action necessary or desirable, continue such hearing to a time and place certain. Within thirty (30) days after the close of the hearing, the commission shall render its decision in the form of a written recommendation to the council. The recommendation shall include the reason(s) for the recommendation.

B. Prior to publishing a petitioned zoning map change, the commission may, on its own motion, delimit or extend the boundaries of such area, so as to constitute a more reasonable zone district boundary.

C. In the case of proposed amendments which are initiated by the commission, the commission shall hold a public hearing as required by this section and shall either:

1. Transmit such proposal to the council which shall thereupon proceed as set forth herein for any other amendment; or
2. Vote to quash the commission initiated proposal, in which case no further action need be taken by the commission or council.

17.80.040 Council action.

A. Once the commission has held a public hearing, the council may adopt the recommendations of the commission without holding a public hearing if there is no objection, request for public hearing or other protest, time and place of the hearing shall be given in the time and manner provided for the giving of notice of the hearing by the commission as specified in Section 17.80.030. In addition, the town may give notice of the hearing in such other manner as it may deem necessary or desirable.

B. If the owners of twenty (20) percent or more, either of the area of the lots included in a proposed change or of those immediately adjacent in the rear or any side thereof extending one hundred fifty (150) feet therefrom, or of those directly opposite thereto extending one hundred fifty (150) feet from the street frontage of the opposite lots, file a protest in writing against a proposed amendment, it shall not become effective except by the favorable vote of three-fourths of all members of the council. If any members of the council are unable to vote on such a question because of a conflict of interest, then the required number of votes for passage of the question shall be three-fourths of the remaining membership of the council providing that such required number of votes shall in no event be less than a majority of the full membership of the legally established governing body.

C. If the council's recommendation is to overrule the recommendation of the commission, such decision shall require the vote of three-fourths of all members of the council voting on the question.

D. The council shall not make any changes in any proposed zone district boundaries or zone district classification recommended by the commission, until such proposed changes have been referred back to the

commission for a report. Failure of the commission to file a report back to the council within thirty (30) days from the date to receipt of the recommended changes shall be deemed to be approval of the proposed change(s) as recommended by the council.

E. At the time of rezoning, the council may establish a schedule for development of the specific use or uses for which rezoning is requested. If at the expiration of this period the property has not been improved for the use for which it was conditionally approved, it shall revert to its former zoning classification without legislative action.

(Ord. 2007-004 § 1 (part))

17.80.050 Reconsideration of denied amendments.

In the event that a petition for an amendment is denied by the council, or is withdrawn after the commission hearing, the commission shall not consider the petition or any other petition for the same amendment of this title as it applies to the same property described in the original petition, or any part thereof, within a period of one year from the date of such denial action, unless the conditions upon which the original denial was based have changed.

(Ord. 2007-004 § 1 (part))

17.80.060 Exceptions.

In the event that a request for amendment concerns only the amendment of general requirements of this title, no signature of affected property owners or posting of property shall be required; provided however, that all other provisions of this chapter shall be complied with.

CONDITIONAL USE PERMITS

Sections:

17.84.010 Purpose.

17.84.020 General regulations.

17.84.030 Conditional use permit application.

17.84.040 Commission action and findings.

17.84.050 Appeals.

17.84.060 Time limits.

17.84.070 Revocation.

17.84.080 Fees.

17.84.010 Purpose.

Every zoning district contains certain buildings, structures and uses of land which are normal and complementary to permitted uses in the district, but which, by reason of their typical physical or operational characteristics, influence on the traffic function of adjoining streets or similar conditions, are often incompatible with adjacent activities and uses. It is the intent of this title to permit conditional uses in appropriate zoning districts, but only in specific locations within such districts that can be designed and developed in a manner which assures maximum compatibility with adjoining uses. It is the purpose of this chapter to establish principles and procedures essential to proper guidance and control of such uses.

(Ord. 2007-004 § 1 (part))

17.84.020 General regulations.

A. Zoning district regulations established elsewhere in this title specify that certain buildings, structures and uses of land may be allowed by the commission as conditional uses in a given district, subject to the provisions of this chapter and to requirements set forth in district regulations. The planning and zoning commission is empowered to grant and to deny applications for use permits and to impose reasonable conditions upon them.

B. Any building, structure or existing use on the effective date of the ordinance codified in this title which is reclassified as a conditional use by this title for the district in which it is located shall be considered as meeting the conditions which would otherwise be imposed upon such use by this title, and its continuance shall not be subject to issuance of a conditional use permit; provided, however, to the extent that such fails to conform to the requirements of this title, it shall be considered nonconforming as described in Chapter 17.96, and its continuance shall be governed by all nonconforming use regulations applicable thereto.

C. Every conditional use permit issued shall be personal to the permittee and applicable only to the specific use and to the specific property for which it is issued. Upon completion and final inspection by the zoning administrator of any authorized structures, signifying that all zoning and site development requirements imposed in connection with the permit have been satisfied, the conditional use permit shall thereafter be transferable and shall run with the land, whereupon the maintenance of special conditions imposed by the permit, as well as the compliance with other provisions of this title, shall be the responsibility of the property owner.

(Ord. 2007-004 § 1 (part))

17.84.030 Conditional use permit application.

Application for a use permit shall be filed with the zoning administrator on a form prescribed by the commission. The application shall be forwarded to the planning and zoning commission by the zoning administrator, and when required by the commission, shall be accompanied by a detailed site plan prepared in accordance with Chapter 17.88 showing all information necessary to demonstrate that the proposed use will comply with all special conditions as well as other regulations and requirements of this title. The applicant shall furnish the commission any additional information it may consider relevant to the investigation of the case. (Ord. 2007-004 § 1 (part))

17.84.040 Commission action and findings.

A. It is the express intent of this title that any use for which a conditional use permit is required shall be permitted in the particular zoning district, provided that all special conditions and requirements of this title are met. Therefore, the action of the commission shall be one of approval or denial based upon its judgment as to whether the specified conditions have been or will be met.

The commission shall consider not only the nature of the use and the special conditions influencing its location in the particular district, but also the proposed location of buildings, parking and other facilities within the site, the amount of traffic likely to be generated and how it will be accommodated, and the influence that such factors are likely to exert on adjoining properties. The title may make such suggestions as it considers desirable and shall provide all possible guidance to the applicant in his preparation of application, plans and data in such manner as to satisfy the intent of this chapter.

B. Notice of the nature of the conditional use permit application and the date of the meeting at which it will be considered shall be posted on the property, and shall be mailed to the owners of all real property within three hundred (300) feet of the property for which application is made.

C. The commission shall consider the application at their next regular meeting if the application was filed at least twenty (20) days prior to such meeting. Otherwise it shall be carried over until the next regularly scheduled meeting. The commission may reach a decision, continue the matter to a specified date (but not later than the next regularly scheduled meeting), or may set the matter for public hearing. If the commission does set the matter for public hearing, notice thereof shall be given to the public by publication of a notice in the official newspaper of the town and by posting the property included in the application, not less than fifteen (15) days prior to the hearing. It shall be the responsibility of the applicant to maintain the posting. The notice shall set forth the time and place of the hearing and include a general explanation of the matter to be considered and a general description of the area affected.

D. In order to grant any use permit, the findings of the commission must be that the establishment, maintenance or operation of the use or building applied for, will not be detrimental to the public health, safety, peace, convenience, comfort and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or the general welfare of the town.

E. The commission may designate such conditions in connection with the use permit as it deems necessary to secure the intent and purposes of this title, and may require such guarantees and evidence that such

conditions are being or will be complied with.

F. If the commission finds that the application and supporting data does not indicate that all applicable conditions and requirements of this title will be met, it shall deny the permit. Notice of denial, including reasons therefor, shall be mailed to the applicant at the address shown in the application, and the commission shall report its actions to the council at its next regular meeting.

G. If the commission approves the application, it shall direct the zoning administrator to issue a conditional use permit setting forth all conditions and requirements governing such use, shall make the approved site plan a part of the record of the case, and shall report its actions to the council at the next regular meeting. Failure of the applicant to comply with the conditions and safeguards which are a part of the terms under which a conditional use permit is granted, shall be deemed a violation of this title and punishable under Section 17.04.050. (Ord. 2007-008 § 1; Ord. 2007-004 § 1 (part))

17.84.050 Appeals.

A. Any person may file an appeal with the town council over any decision of the planning and zoning commission regarding the granting or denying of use permits. If no appeal is filed with the council within fifteen (15) days after commission action, the action of the commission shall be considered final.

B. When a written appeal is filed with the town clerk, the council shall evaluate the request at their regular meeting and may approve or deny it. The council may elect to set the matter for a public hearing, and if such action is taken, a legal notice shall be published at least once in the official newspaper of the town at least fifteen (15) days prior to the hearing date, and the property included in the application shall be posted at least fifteen (15) days prior to the hearing date.

Notice shall be given to the planning commission of such appeal and the commission shall submit a report to the council setting forth the reasons for its action taken. The commission shall be represented at the hearings by the commission chairman or his designee.

C. The council shall within fifteen (15) days after its regular meeting or public hearing, either uphold the action of the planning and zoning commission, reverse that action or make a decision of its own.

D. If the council makes a decision which upholds granting of a permit, the council may designate such conditions in connection with the permit as it deems necessary to secure the intent and purpose of this title, and require such guarantees and evidences that such conditions are being or will be complied with.

E. The council's decision shall be final and shall become effective immediately. Notice of the decision shall be mailed to the applicant at the address shown in the application. (Ord. 2007-004 § 1 (part))

17.84.060 Time limits.

A. Use permits become effective fifteen (15) days after approval by the planning commission, but in the event an appeal is filed, said permit shall not become effective until a decision is arrived at by the town council.

B. Any use permit issued by the planning and zoning commission shall be commenced within six months from the date of approval, and diligently pursued, otherwise it shall become null and void. The commission shall establish a time limitation for all use permits and at the termination of this time limit, the commission shall reconsider said use permit to determine if the permit should be reissued for an additional time period or be terminated.

C. No person shall reapply for the same or substantially the same use permit on the same or substantially the same plot, lot or parcel of land within a period of one year from the date of denial or revocation of said use permit.
(Ord. 2007-004 § 1 (part))

17.84.070 Revocation.

A. Use permits granted in accordance with the provisions of this title may be revoked if any of the conditions or terms of the permit are violated, or if any law or ordinance is violated in connection therewith. The zoning administrator shall notify the permittee of a violation or termination of a use permit by mail. If no attempt to change the violation is made within ten days after notification, the permit shall be removed and considered null and void.

B. Any use permit issued by the planning and zoning commission shall be considered null and void if the use does not conform to the originally approved conditional use permit. Any deviations requested from the originally approved conditional use permit, shall be processed as a new use permit.
(Ord. 2007-004 § 1 (part))

17.84.080 Fees.

The application for a conditional use permit shall be accompanied by a filing fee in an amount established by a schedule adopted by ordinance or resolution of the council fee schedule and filed in the office of the town clerk. No part of the filing fee shall be returnable. Payment of the filing fee shall be waived when the petitioner is the town, county, state or federal government.
(Ord. 2007-004 § 1 (part))

B. The zoning administrator shall forthwith transmit to the board all papers constituting the record upon which action appealed from is taken.

C. The appeal stays all proceedings in the matter appealed from, unless the zoning administrator certifies to the board that, by reason of the facts stated in the certificate, a stay would in his opinion cause imminent peril to life or property. In such case, proceedings shall not be stayed, except by a restraining order granted by the board, or by a court of record on application and notice to the zoning administrator.

D. Any variance granted may be subject to such conditions as will assure that the adjustment authorized shall not constitute a grant of special privileges inconsistent with the limitations upon other priorities in the zone in which such property is located.

H. A variance shall not be granted by the board unless the alleged hardship caused by literal interpretation of the provision of this title results in more than personal inconvenience and/or financial hardship, and is not the result of actions of the appellant.

I. In granting variance, the board may impose such conditions and safeguards as are appropriate to ensure that the purpose and intent of this title will be fulfilled. Failure to comply with such conditions and safeguards, when made a part of the terms under which a variance is granted shall be deemed a violation of this title.

Allowance of the writ shall not stay proceedings upon the decision appealed from, but the court may on application, on notice to the board, and for good cause shown, grant a restraining order, and on final hearing may reverse or affirm, wholly or partly, or may modify the decision reviewed.

It is the further purpose of this section to place upon the property owner the primary responsibility for relieving public streets of the burden of on-street parking. (Ord. 2007-004 § 1 (part))
(Ord. No. 2010-002, § 1, 4-7-2010)

17.104.020 General regulations.

A parking space shall mean an area of not less than one hundred eighty (180) feet, with a minimum width of nine feet and a minimum depth of twenty (20) feet, which is specifically designated for and used for, the parking of an automobile or light truck, exclusive of all driveways and access ways.
- B. Permits. An applicant for plan review must submit plans showing the off-street parking required by this chapter. These plans must show location, arrangement and dimensions of the off-street parking, turning spaces, drives, aisles and ingress and egress, and must be approved by the zoning administrator in accordance with the provisions of Chapter 17.88. Whenever approval has been issued in compliance with the requirements of this chapter, subsequent use of the structure, or use of the land is conditioned upon the unqualified availability of off-street parking as shown in the approved plans.
- C. Alterations, Additions and Expansion of a Business.
1. A new use, addition or alteration of a building shall not be approved if it would create or increase a deficit in off-street parking, except by conditional use permit.
 2. It is unlawful to reduce the amount of existing parking below the minimum required by this chapter without first supplying other spaces as are required.

2. Design. All off-street parking lots and spaces shall be so designed as to prevent automobiles from backing onto a public street or from projecting beyond the property lines. This shall be accomplished through the use of such devices as curbing, striping, landscaping, setbacks, driveways or any other method which will ensure compliance with this requirement.

All areas of a parking lot, with the exception of necessary points of ingress and egress, shall be no closer than ten (10) feet from the front property line. Undeveloped areas shall be landscaped and maintained in accordance with Chapter 17.90, design review.

17.104.040 Schedule of required off-street spaces.

A. [Specific Uses.] Off-street parking spaces shall be provided for each specified use in accordance with the schedule below.

B. Definitions. In calculating the total number of required parking spaces, "usable floor area" as used herein means the area capable of being devoted to the specified use (does not include such spaces as kitchens, restrooms, hallways, etc.) and the term "seat" shall also include thirty (30) inches each of bench seating when individual seats are not provided.

C. Mixed Uses. In the event of mixed uses, the total requirement for off-street parking spaces is the sum of the requirements of the various uses computed separately.

D. Shared Parking. In the case that a daytime use and a nighttime/weekend use share a common parking lot, the developer and/or property owner may use shared parking as a means of satisfying off-street parking requirements. Shared parking would allow a site with multiple uses that have different operating hours or different peak business periods to share a parking lot that has less total parking spaces than would be required if each use had a separate parking lot.

1. "Daytime Uses" means uses that operate predominantly during weekdays (Monday through Friday, six a.m. to six p.m.) and require the most parking spaces during weekdays. Examples of these uses are: banks, office buildings, and schools.
2. "Nighttime/Weekend Uses" means uses that predominantly operate during nights (six p.m. to two a.m.) and weekends (Saturday and Sunday) and require the most parking spaces during nights and/or weekends. Examples of these uses are: restaurants, theaters, bowling alleys, night clubs, bars, and dance halls.

E. Fractional Amount. In calculating the total number of required off-street parking spaces, fractional amounts are to be disregarded.

F. Unlisted Uses. Parking requirements for a specific use not listed in this section shall be determined by the zoning administrator.
