I10-C and I-10G Permitted to Install Electric Service Pedestals

Effective immediately and as of October 18, 2017, all Installers with a I-10C and/or G class of license are permitted to install electric service pedestals, poles and disconnects. This work includes the following:

- Install the meter pedestal; or
- Install the pole and meter panel assembly; and
- Install the grounding electrodes and ground wire; and
- Wiring from the disconnect in the meter panel or pedestal to the manufactured home or FBB; and
- Underground conduit from the pedestal or meter panel to the power source (transformer) per code and any local jurisdiction requirements.

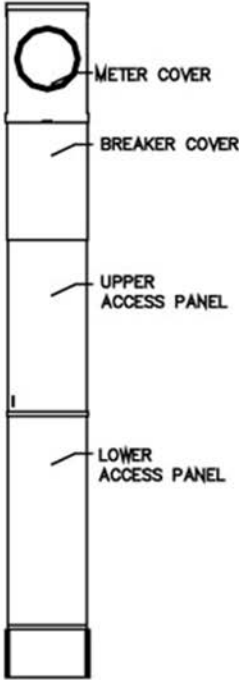

NOTE: This scope of work does **NOT** include any wiring from the power source (transformer) to the pedestal. This work shall be performed by the utility company along with the meter to energize the entire system, and is inspected by the local jurisdiction or by the power company.
